Who are we?

About the organization

We are a contracting company providing integrated construction solutions to the highest specifications throughout the Kingdom of Saudi Arabia. We execute projects professionally, from foundation to finishing, guaranteeing quality and precision at every stage.

Our Vision

We aspire to be among the pioneers of the contracting sector in the Kingdom of Saudi Arabia, and to contribute to the development of infrastructure with modern methods and high quality.

Our message

We offer reliable and innovative construction services, adhering to the highest standards of quality and on-time delivery to ensure our clients' satisfaction on every project.

Core values

Innovation – We adopt the latest technologies and methods to ensure continuous development

Safety – We apply the highest safety standards to ensure the protection of workers and projects.

Customer First – We put our customers needs at the forefront of our priorities to ensure their complete satisfaction.

Quality – We are committed to executing projects according to the highest standards to ensure durability and precision in the work.

Honesty – We are committed to transparency and credibility in all our dealings, which enhances trust and credibility with our clients.

Commitment – We are committed to respecting deadlines and delivering projects efficiently and professionally, according to the highest standards.

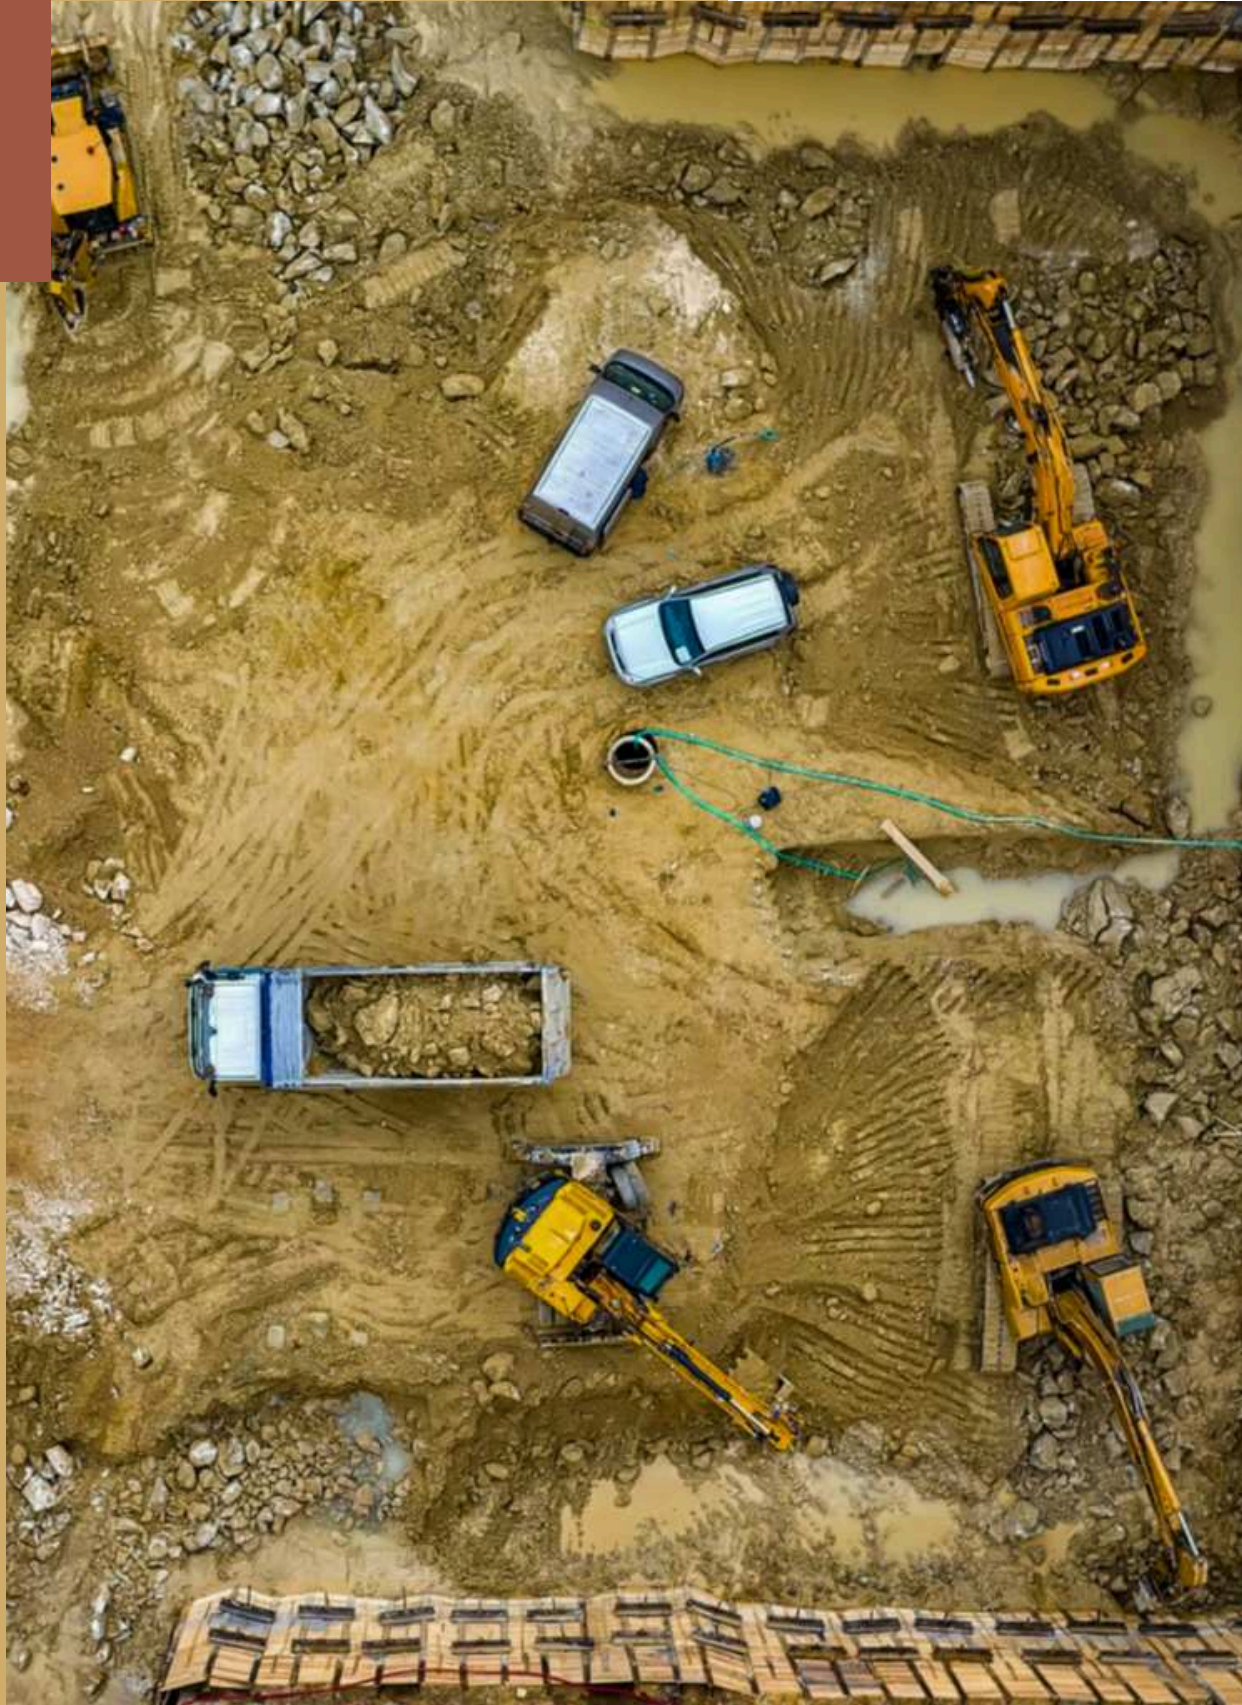

Our services

- General Contracting
- Project Management
- Infrastructure Works
- Engineering Consulting

General Contracting

Execution of all construction works, from excavation and foundations to final handover, in accordance with the highest quality standards and adherence to the agreed-upon schedule.

Project Management

Supervising all phases of the project, from planning to execution, to ensure smooth and efficient workflow, while controlling costs and guaranteeing the highest levels of quality

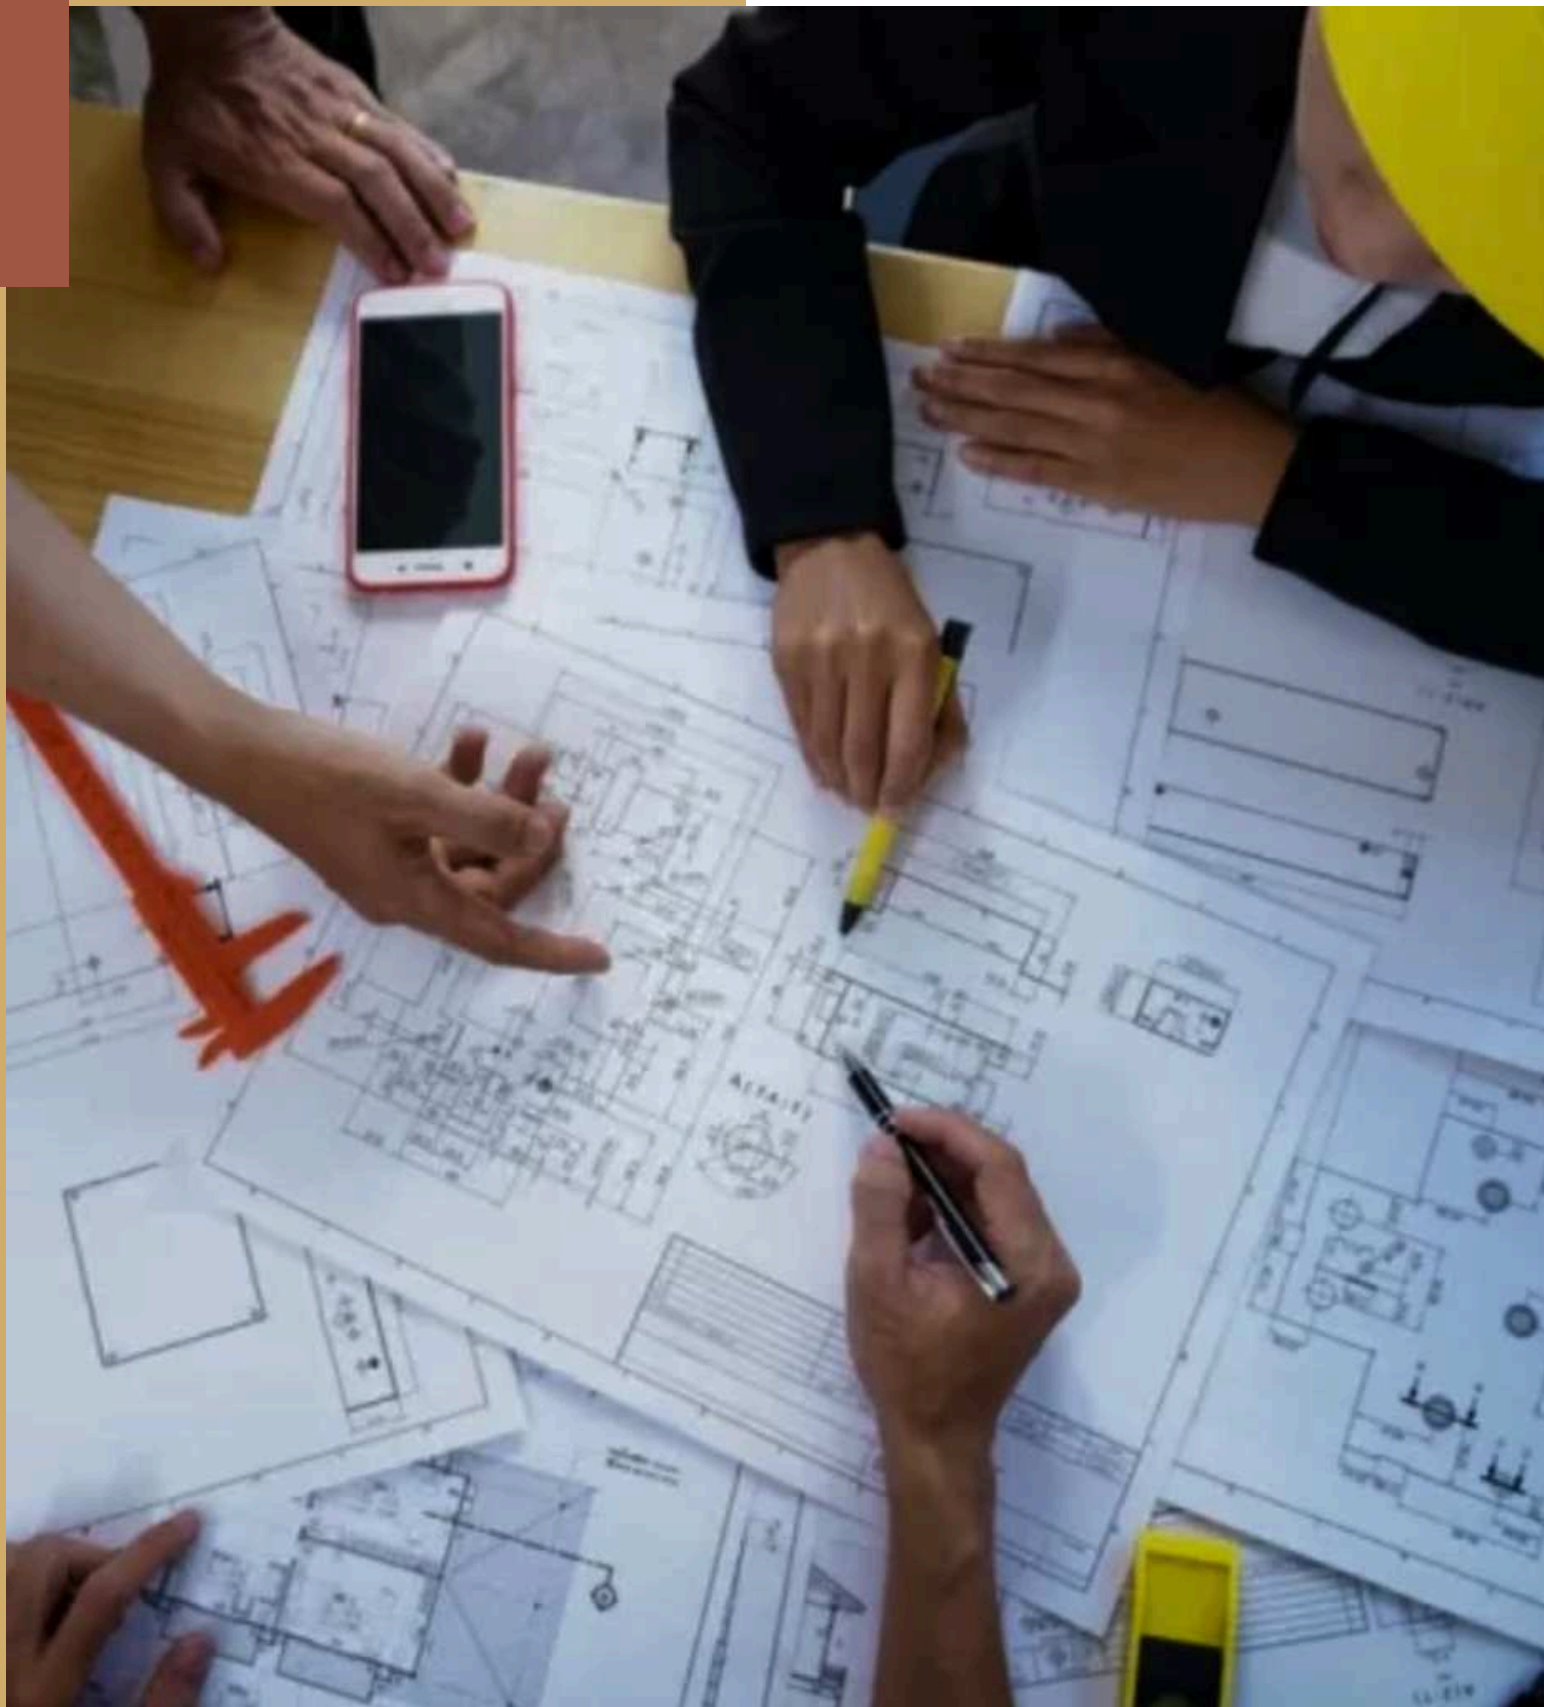

Infrastructure works

- Execution of all types of infrastructure works.
- Excavation, backfilling, leveling, and site preparation.
- Execution of asphalt and road works according to technical specifications.
- Supply, transport, and removal of materials and waste.
- Execution of tunnel excavation and removal of excavated material.
- Road filling and preparation for government and private projects.
- Provision of equipment and machinery to execute works with high efficiency.
- Adherence to quality and safety standards in all phases of execution.
Completing projects accurately and professionally within the specified timeframes

Engineering Consultations

Providing integrated technical and engineering solutions to achieve the client's vision with the best designs, while adhering to the latest construction standards.

Why us?

Experience and expertise – We have a specialized team in contracting and construction, ensuring the highest quality and efficiency in project execution.

Commitment to deadlines – We deliver projects on time without delay, while maintaining the highest standards of precision.

Guaranteed quality – We use the best materials and the latest technologies to ensure the durability and sustainability of our projects.

Competitive prices – We offer high-quality construction solutions at prices that suit our clients' needs.

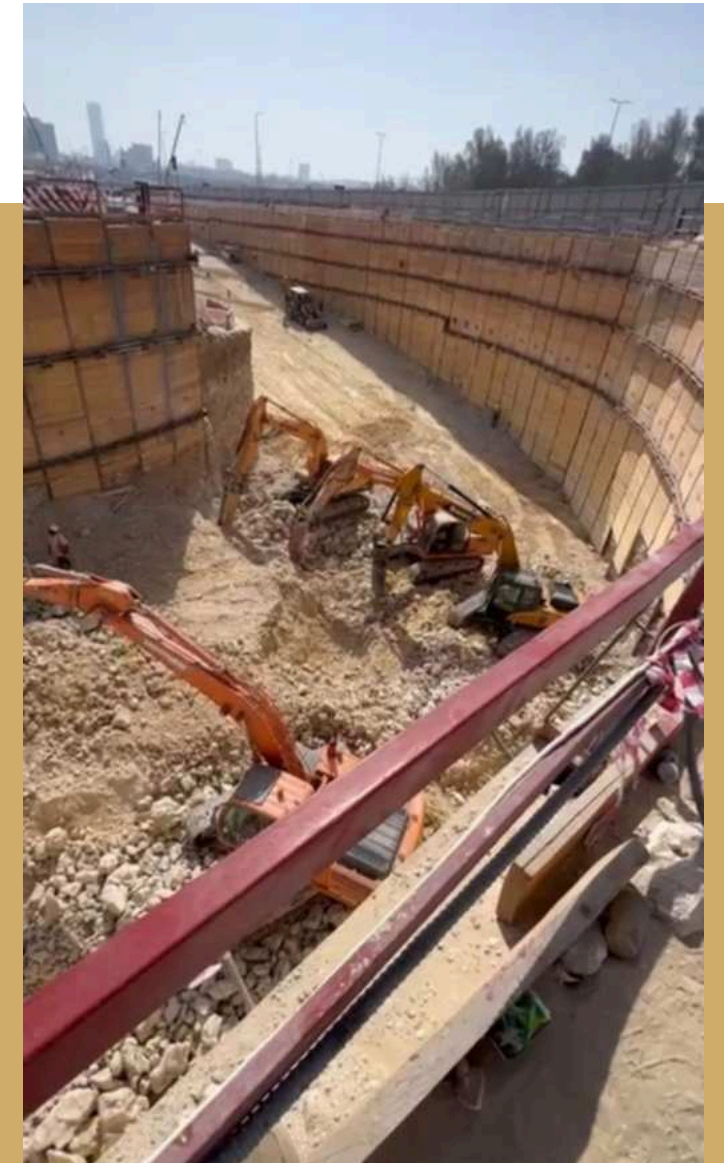

Integrated solutions – From planning to execution, we provide comprehensive services covering all phases of construction.

Transparency and credibility – We operate with complete clarity and professionalism to ensure our clients' satisfaction and trust in our services.
